DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a large frame house of two and one half stories. The main portion of the house is a rectangular block with a hip roof, to which has been added a two story wing on the north side and a one story wing on the west side. The main entrance to the house is on the four bay east facade. Over the door is a semicircular fanlight with radials. Above this, supported by four large brackets, is a gabled rain hood. On the second story, above the front door, is a double casement window. Over the two end bays, toward the north of this facade, is a gable with a double window. Also on this side of the house is a hip roofed dormer. The south facade, which faces Locust Street, consists of three bays plus one bay in the one story wing. Over two of the bays is another gable. There is an awning in front of each of the rectangular windows on this house.
